Danded.

Mr. Sutherland's plan, eithough approved by his col-leagues of the Small Committee of Conference, upon being proposed to the Cooper Committee of Conference was re second by them, and Mr. Wakles' plan was also unani-

Socied by them, and Mr. Anties' plan was also unanimonely rejected by the unservigued.

The temper Committee of Conference then proposed to
adopt the arti-olnio article of Mr. Subseriand's plan, as
a substitute for the first print or article of Mr. Sickles'
plan, retaining all the other articles and provisions of Mr.
Sickles' plan. This proposal was declined by the understened.

origned.

The Cooper Committee of Conference then proposed to
adopt the first point or article of Mr. Sutherland's plan
(prividing for the formation of the Union General Committee, merely) rejecting all other articles or provisions of

(or retiding for the formules of the Union General Committee, merely) rejecting all other articles or provisions of both plans.

This proposal was also desirted by the undersigned. The Joint Committees of Conference them separated. The foregoing are substantially the facis growing out of this joint Committee of Conference.

The undersigned have no totention now of stating at large the alteged grounds or the reasoning upon which the Cooper Committee of Conference and the Small Johnmittee of Conference and the Small Johnmittee of Conference rejected the processions of each other leading to this section failure of an effort for union.

It is, perhaps, sufficient now to say (and it is all we have time to say in wridne,) that the main articles or propositions of Mr. Sutherland's plan, subsequent to the first providing for the formall in of the proposed Union General Committee, were intended to secure the democratic elections of this city against a return to the vandalism of primary elections, and by the union and preservation of the ward associations now formed, and the organization of new associations of the ment of the supplementaling conventions and general committees, and to excercise all other poli hal franchises in his district or ward, free from the discussion of the General Committee, either in or out of Tammany.

The understreed would not give away the right of the people to elect their own delegates to Syracuse, nor could they consent to put it in the nower (or claimed power) of the preposed Union General Committee (three fifths of whose members would not have a pretence of deriving power from the poople) to directly elect the delegates to Syracuse.

The accortion of the first article of Mr. Sutherland's plan alone, without any manufact.

the preposed Union General Committee (three firms of whose members would not have a protonos of deriving power from the poople) to directly elect the delegator to Syracuse.

The accotion of the first article of Mr. Setherland's plan alone, without any guaranties for the democratic electors of the Union General Committee trovided for in that article, would have left the whole depoweracy of this city to the kender merchs of this proposed Union General Committee and of the politicians who would have controlled it.

Knowing, as we do, the origin of the dimonities in the party here; that this committee (the Wilson Small Committee) was regularly elected according to the cases of the party, and organized with obtestants for seats in only six words; that the reform convention, Mr. Scikice' amendment to the plan of the Refore Committee of twenty two; the organization of two antigonistic word associations, and the antigonistic Ocoper Committee, have all aprung from the unauthorized autom of a cless political corporation or and called Savase Committee, which, without a constitution, and without organization, away comes in and good out, whether to make a Reform Convention or a new General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of a Union General Committee, whether to the formation of the formation, substantially the Impations of the claimed power of that committee contained in the subsequent articles of that plan; and which the think alone of the proposed Union General Committee, not as more recommendation of the committee of the proposed Union General Committee, not as more recommendation of the control of the formation of the proposed the party a

oral Committee to the exercise of his proper duties, and protect the people against the shase of these cialmed powers.

It is matter of history that for years past the democratic General Committees of this city have not only perpetuated themselves, but have absolutely controlled nominations and the election of delegates to conventions, by the appointment of inspectors of primary elections and otherwise; that these committees have been generally controlled by politeriate, who were also either sachems or members of the Tammany Sectety; and that that close corporation and these general committees acting together have used both the govern the people and to got spoils and offices, both there and elsewhere, for a favored clique of patticlass, unterly disregarding and setting saids the will of the people.

cher and elsewhere, for a favored clique of pajuicians, unterly disregarding and sotting aside the will of the people.

We could not consent to return to the old state of things. We could not consent to put the democracy of this city into the power of this new General Committee, made up, as it would have been without confining that committee in its legitum-te business of aiding in carrying out the will of the people, and without projecting the people against its claimed power to disband their primary auto-claimons, and against any abuse of its parer is packing membaring conventions.

It was not power that we asked for or wished to restain, we offered to yield up a 1 the power of this General Committee; and is consenting to the taking of two of the so-called favage Committee from each ward, we gave the Cooper Committee a vast proponderance in the new General Committee and the absolute control of it.

The extent of our sacrifice of foeling, of principle and of constitency invelved in this quari acknowledgement of the Savage Committee, as an existing committee or organization, will appear when we state that although out of this city the people may activally think that there are three committees, the finall, Cooper and Savage, antagonistic to each other, and each craming regularity and a right to Tammany Hall, yet here the Savage Committee is well known to be a joke, a scheme, originated by a concert of action between the seven Sachems and the remnants of the Libby faction—that all there ever was, or is, of the Savage Committee, was and is a carcus of gentlemen, without having the basis of ever an Irregular expression of popular will, who nover appeared as conjectants of some in any

body, and who as a fairing of su speeced committee have so constituting to back them, who have from time to time applicated, and them disappeared, as the seven Sachema, or the Reform Louvenden or the Cooper Committee have wasted them—and that the attack of the seven Sachema upon the general Committee, which originated the difficulties and divisions of the party here, was upon the ground that there were two General Committees claim ing seals in Tarux any Hall; the Havage Committees, (their own creature, resed up by them for the very purposes of this much, and it is General Committee.

In conceding o intence to the davage Committee, for union, as we did, we considered that we were giving the right to the Cooper Committee to mame any two gentlements they mississes. It is General Committee to mame any two gentlements are the committee. This General Committee has heretofore, uniformly and upon all on asions, denied the aristence of the Savage Committee, and have unanimously, by strong resolution, as exposed the scheme which gave origin and use to its pretented existence. But the undersigned, for the sake of uncon, were willing to forget all this—to almost stuiring the supposed Savage Committee into an existence at an attagous.

The undersigned they dould sufficiently profect the democratic existence for the sould sufficiently profect the democratic existence for the sould sufficiently profect the democratic existence has a content of the General Committee, whose centrolling majorities would have been derived from such a questionable sufficiently inform this General Committee of the coupe, will sufficiently inform this General Committee of the cause or cannes of the failure of this second effort for a union.

2d. That we will maintain and preserve the Constitution of the United States with all is checks and naisness; and that treaties made by the President, and snob laws pussed by Congress under the constitution, and decisions made by the Supreme Court of the United States are equalty binding upon the people, and must be maintained in order to preserve the country from anarchy; and that it is the duty of every citizen to seatain toose departments of government against the assaults of bigots, fanatics and traitors.

Resolved 1st. That we will preserve and maintain the institutions of this State in a just relation and harmony towards the general government, and we reguliate and conderm any effort that has been, or may be made, which asserts the right, or remotely tends, to bring our State into collision or conclict with the general government.

2d. That the conduct of the back republican party, acting through their representatives, in passing a law authorizing negroes and Indians to become witnesses against the citizens of this State, was an unjustifiable innovation upon the laws of the State—passed without necessity, and the first step towards a system intended to equalize the black and white races.

3d. That the late Constitutional Convention, composed of a large majority of black recubileas members, openly advocated the equality of the black and the white poole, and unantmously recommended, through an appending the people of this Stale, and placing the negre upon that naturement. We, therefore, feel free to charge upon that instrument. We, therefore, feel free to charge upon that instrument. We, therefore, feel free to charge upon that instrument. A COWARDLY ASSAULT BY ROWDES.—Last evening, about 8 o'clock, as Mr. Farrol, an attache of one of the morning newspapers, was attending to the duties of his profession, he espited a couple of drunken loaders stopping a respectable famale on the corner of Laurens and Broome streets. He at once proceeded to release her from their ciniches, when the two scamps turned on him and attempted to as sault him, but from his determined stitude they found they had waked up the wrong ous omer. They then followed Mr F, in his course up street, and collected a gang on the corner of Wooster and Broome, and at once the whole party set at him, knecked him down and best him in a most abameful manner. Word was sent to the Sighth preclact station house and officers were sent to arrest the two ringlesders in the assault, which they did, and we hope an example will be made of them.

Common Pleas-Special Term.

Before Hon. Judge Brady. SEPT. S. - Jacob Bogart and Stephen Bogart vs. Leanthe Hunt and William H Van Cott-The defendant, Leanthe Hant, commenced an action in the month of March, of this year, before the other defendant, who is Justice of the Fourth District Court in this city. It was contended on own use. The testimeny was contradictory. No decision was rendered at the time, but sometime last thay an execution was found on the judgment against the Bogorts, which they state in their complaint was the first tatefit gross they could get of the sature of the judgment. The time to appeal having lapsed, they immediately get a stay of proceedings by commonding an action in this court, and filing the accessary bond, until the order to show same why an injunction should not be granted could be estermined. After hearing the argument of Mr. John O'Rourke for prisintiffs, and Mr. Sedg who for defoundants, the Court determined, in an elsbowste opinion, that the judgment must be vacaled, and the execution est acide, on the ground that "the judgment had no publicity". The injunction prayed for its granted, but without prejudice to the defendants' rights to commence another action.

MONEY MARKET.

MONEY MARKET.

BATURDAY, Sopt. 5-6 P. M.
The stock market is rapidly setting down again. The recent advance was entirely without frundation, and was therefore short-lived. Some sensible people no doubt availed themselves of the opportunity to real se and get clear of stock investments. At the first board to day Missouri 6's decilined 3% per cent; Cumberland Coal, 1%; New York Central, %; Hudson River Railroad, %; Harlem, %; Michigan Central, 2; Michigan Southern, old, 2; do, preferred, 3; Panama, 2; Michigan Southern, old, 1; Galena and Chicago, 3; Cleveland and Toledo, 2%; Chicago and Rock Island, 3; Millsmakle and Misstatippi, 2%. Virginia 6'g advanced 1% per cent. There were sales, this mornang, of Illinois Central Railroad stock, on seller's option, 60 days, at 4 a 5 per cent under the cash price. The decline in stocks to-day was general. We are approaching cline in stocks to day was general. We are approaching the chronic period in our financial distress, and a degree of depression and prostration will be realized, such as has never before been known. The demand for money now is mostly of an artificial character. As soon as the new crops begin to move the demand for money will be more legitimate and more active, which, with the absence of public confidence, cannot but press heavily, and, we fear, seriously, upon the commercial ciseses. At the second board there was no change in the market-

The Sadger State, in speaking of the La Grosse and Milwaukie Railroad gatersion, sajs.

The track of the La Grosse and Milwaukie Railroad is now laid to a point about 9 miles from this city westward, where a stretch of some 2½ miles of low land temporarily obecks the rapid progress that has hitherte marked the work, but which will be overcome in a few days, as it only needs a top dressing of sand to 5% if for the track Over \$,000 feel of track were laid on Monday, and the whole 9 miles have here laid in 19 days. The read is nearly an air-line to Kilboura City, only three or four sight ou was intervening.

On Tuesday afternoon, through the politaness of the gentlemanly contractors in company with several of our citizens, we seated ourselves on a pile of rails on the construction train, and passed over the route to its present forminus, and it was the opinion of all that it was the smooth, and and most complete track, for a new one, in the western country. We understand that it is the intention of the contractors to push the road on from Kilbourn City to New Liabon, Junes county, fifty miles beyond this city, and shout fifty miles from La Crosse, as fast as poustole, and that they have ample means to do it before the ground freeze. We also understand that the grading of the route through to the La Crosse, we fast as poustole, and that they have ample means to do it before the ground freezes. We also understand that the grading of the route through to the La Crosse Valley, will be completed this fail, with the exception of the tennel at the dividing ridge, which will be in shed by spring. This tunnel is to be 1,400 feet long, some 200 below the surface, through solid rock that sheds no arching, and, when completed, will be a work of greater magnitude than any other on the cetter route of the road. The energy which the contractors have exhibited herofore under the discouragement of an unusually severe winter, is a guaranty that this important road will not dray on their hands. It will be on far completed by Decembe

SEPTEMBER.

Mostly of the harvest!—dear to all.

The hoarfrosts speaking of the full!—
Dear are high leaves of channing hus,
And thy warm heaven of clouded blue;
And, best of all, the softer gow

With which thy purpling sunsets dow.
Cur soberer walks are brown and strewn
With rose leaves, flushing red in June;
Nor can the gardom's colours vise

With those that decked it in Ju y;
And all the wandering wieds are fraugh!

With scents less sweet than Augus: broughtthat still. Resterabler, rich and how. But still, September, rich and brown, Thy mande reals o'er plain and down, and 'neals thy tonot the f. cests oil Fiame, liveried in red as d gold; While casth, in subserv garb, prepares Her breat for wit ter's frosty halm.
